The Sharp Little Sparrows. notwithstanding the severely cold weather of the last few days, the streets and trees in Bloomington, says the Post-Tribune, seem to have the usual amount of the little English sparrows that they do when the weather is more propitious.

It is an interesting sight to watch them about the elevators, barns, and in front of stores where feed is sold. Quite a flock of them were yesterday in front of a feed store on South Center street, where a box of corn and a box of oats were exposed and stood in the light of the sun with the utmost quietude and swallowing the kernel, will drop the husk on the walk. The herds of corn are too big for them to swallow, but they will work of them for a minute or two with their little bills, when they soon have the kernel divided into two or three parts to that they can swallow them.

Students of Bloomington and McLean county, who have closely observed the matter, say that the "sparrows" have not decreased the number of sparrows to any appreciable extent.

DURFEE IS COMMISSIONER.

He Will Look After the Joliet Penitentiary—The Railroad Board.

Nominations Sent to the Senate To-day by Gov. Altgeld—Confirmations To-morrow.

Governor Altgeld to-day put a number of Democrats in line to go on duty as state officials. And now the agency is over for scores of anxious ones who have been seeking preferment at the hands of the state executive.

Altgeld has made his choice at last, and to-morrow the senate will be called upon to confirm the appointments so that the commissions may issue and the pay of the appointees begin.

RAILROAD COMMISSIONERS. Nominations for penitentiary commissioners were made as follows:

Joliet Penitentiary—Hon. B. E. Dyer, Director; Samuel H. Brown and Levi A. Brown.

Chicago Penitentiary—W. F. Chidsey, Director; Wm. Crane and John J. McDonnell, the latter from Birmingham.

The yearly salary of the penitentiary commissioners is \$1500, including transportation on all railroads and other perquisites of an official character. The work is not arduous, but the duties are such that good business men are required to look after the affairs of the institutions.

Mr. Durfee was strongly supported for appointment as member of the railroad board, the salary being \$8000; but the candidacy of Mr. Lane, which was presented with considerable spirit, put Mr. Durfee out of line for that place.

Mr. Durfee's appointment will be strongly endorsed by his many Democratic friends, regardless of party affiliation. He is a good business man, in the prime of life, and has served this district as a member of the Illinois legislature. He is the present secretary of the DuPont Gas Light and Coke company, and also secretary of the Savings Fund Building association.

RAILROAD COMMISSIONERS. The following nominations were made for members of the state board of Railroad and Warehouse commissioners:

Alderman Thomas Gibson, of Chicago, a native of Cook county, 44 years of age, member of the Irons Club, and an active member of various societies. He has been connected with several big packing outfits of late years.

Charles F. Luge, of Springfield, a native of Ohio, and a veteran of the late war. He was in the service three months. Until recently he held the position of master mechanic for the Wabash at Springfield. He is a practical railroad man.

William L. Cantrell, a native of Franklin county, a graduate of the Indiana State University, a lawyer, a Democrat, National delegate in 1888, and a son-in-law of Hon. Charles B. Carroll, of Shawneetown.

Put Up the 30th. The Republicans at Springfield in considering the senatorial reapportionment plan make this suggestion as to Mason county:

"Thirty-ninth district—Mason, DeWitt and Monticello counties; population 72,286. Logan is put into the 43d district, with Mason and Tazewell."

The Republicans make this apportionment on the congressional district basis. Thirty-ninth district—DeWitt, Mason, McLean and Livingston counties. Logan county goes into the Fourteenth with Peoria, Marshall, Woodford, Tazewell and Mason.

Ezra Kendall.
"A Pair of Kids," which is to be the attraction at the opera house Friday evening Jan. 20, may be briefly described as one of the brightest of the farce comedies that have come forward in late years, and which goes with a rollicking dash that leaves no spectator any time or opportunity to care for anything except the comic situation that is being played, the music that is being sung or the dance that is being danced. Mr. Kendall's "Jules Button" is an ingenious pretentious of a rustic who is fooled and trapped by the device of a miser man, and his humor is said to shine like a diamond.

CORBETT ON THE STAGE.

The Grand Crowd to See the Man who Downed Sullivan.

James J. Corbett, aged 35 years, the champion pugilist of the world, tall, well-proportioned, active and wiry, appeared on the stage at the Grand last night in his play "Gentleman Jack," and was greeted by an audience about as large numerically as that which welcomed Sullivan who is yet despite his defeat the hero in his drama "Honest Hearts and Willing Hands." There were more ladies out to see Corbett. Before the doors were opened the crowd waiting to enter and get front seats in the gallery and balcony blocked the pavement and spread out into the street. There was only standing room in the gallery and balcony, and four boxes and nearly all of the parquette seats were filled. The first and second acts of the play did not arouse special interest but the last three acts were hammers. Corbett was in every scene, but did not come out strong until he appeared as a pugilist in training for the great fight at New Orleans. In his training suits Corbett, weighing 200 pounds, displayed his physique and muscles to the satisfaction of everybody, who cheered him wildly as he went through the exercises of "punching the bag," striking it two and three times a second. He actually played a tune upon it, and when he stepped into the regulation prize ring in exact representation of the famous Olympic Club at New Orleans the audience was in high feather. Cheering continued and all settled back to enjoy the exhibition of scientific boxing by "the best man in the world." William Delaney, Corbett's trainer, the seconds and referees were there, and so was the ticking telegraph instrument, and all the accessories of a prize ring. Prof. John Donaldson, the champion boxer of England, stood up against Corbett in the ring, and in the four rapid rounds took and gave what appeared to be severe punishment. Corbett demonstrated as nearly as possible how he was able to knock out Sullivan. He did it by new scientific methods, by quick action, by marvelous agility and surprising dexterity. He simply poured in a hail of blows on Donaldson, as he did upon Sullivan, and kept it up persistently until his opponent was simply battered out of the ring. The performance closed with the announcement of the great victory. During the entertainment new specialties were given by Lillian Remond, Belle LeVande, cock dancer, and Dagmar and Desalle, Danish warblers. The combination left for Bloomington this morning.

HELM FELL DOWN STAIRS.
A Former Decatur Citizen in the Jacksonville Fire.

In the REPUBLICAN last evening mention was made of the exciting fire in the basement of the Dunlap House at Jacksonville Monday morning at an early hour. Helms Whitehurst, brother of Miss Whitehurst, of the Woman's Exchange, and formerly a Washburn employe in Decatur, was in the fire. Alluding to the exciting incidents the Jacksonville Journal printed the following paragraph:

Helms Whitehurst, assistant to the general superintendent of the J. B. S. line, had an exciting experience getting down from his room, which is on the third floor. He groped through the dense smoke to the head of the first stairway and started down just behind another person who was carrying a heavy grip. In his excitement the man in front dropped his grip on the stairs, and Mr. Whitehurst, not being able to see the obstacle, he tripped, tumbled over and fell headlong to the bottom of the flight.

He was not hurt, however, and managed to get down the rest of the way without further trouble. He afterwards remarked that he had a little more smoke on the down trip he would have become a balloon, and gone up instead of taking a south drop.

A few came down stairs on the jump, slid in the southeast stairs. One rather portly gentleman, whose wardrobe was certainly not limited to what he had on, ran up a little stair fellow and innocently asked him for the loan of a pair of pants. Another guest came down stairs carrying his heavy trunk upon his back. There were many who rushed out of the hotel minus hats, coats and shirts. One young gentleman is credited with having gallantly rescued a young lady who was almost suffocated and blinded by the smoke and who, in her confusion, did not know which way to turn.

FOUND ASLEEP AND FROZEN.
A Waitress Overcome by Cold and Drowsiness Falls to the Ground.

A Swedish girl by the name of Peterson, who is employed at the Grand hotel, was found lying face down on the sidewalk in front of the hotel last night. She was discovered by a south-bound engineer, who stopped his train and backed up to her body and they took it to El Paso, where, upon examination, it was found that her arms were frozen nearly to the elbow and her legs almost to the knee. It is not known where she came from.

Fast Mail To-Night.
L. J. Carter, author and manager of "The Fast Mail," received the following letter while playing in Chicago from a prominent Chicago man: "I had the pleasure of seeing the 'Fast Mail' last night, and the pleasure was a great one, I assure you. I really do not remember ever having seen a more thorough melodrama, both in plot and action, and the imitation of inanimate sounds very clever. Taken altogether I was sorry to see the curtain drop on the last act. The play with all of the original special scenery will be seen at the Grand tomorrow night."

Wants a Pardon.
L. E. Powell, who was sent to the penitentiary from Decatur about a year ago, on a charge of robbery committed near the Central water tank, has written to Attorney J. M. Gray to see if he can get a pardon. Powell was sentenced for five years. It was evident that he had only fallen in with the real thieves while drunk and probably was not guilty, but he was in the crowd and got the same as the rest. If it is thought he can get the consent of the judge, state's attorney and jury to a pardon.

GOV. ALTGELD ON ROADS.

What He Does Not Know More Worthy of Consideration.

There is a vast difference between the theoretical ideas of city men like Gov. Altgeld and the practical common sense views of the average farmer, and the contrast becomes strongly marked when the theorist undertakes to enlighten the people upon such a subject as the improvement of the wagon roads of the state. The practical common sense of the farmer, who has to travel the wagon roads in the summer of his arduous journey to the market, is a far more valuable asset to the state than the theoretical ideas of city men. The farmer knows that the wagon roads are the lifeblood of the state, and that the improvement of these roads is the most important thing that the state can do for its people. He knows that the wagon roads are the most expensive part of the state's infrastructure, and that the improvement of these roads is the most important thing that the state can do for its people. He knows that the wagon roads are the most expensive part of the state's infrastructure, and that the improvement of these roads is the most important thing that the state can do for its people.

The Sharp Little Sparrows.
Notwithstanding the severely cold weather of the last few days, the streets and trees in Bloomington, says the Pan-graph, seem to have the usual amount of the little English sparrows that they do when the weather is more propitious. It is an interesting sight to watch them about the elevators, barns, and in front of stores where feed is sold. Quite a flock of them were yesterday in front of a feed store on South Center street, where a box of corn and a box of oats were exposed as bait. The sparrows ate the oats with the utmost quickness and, swallowing the kernel, will drop the husk on the walk. The kernels of corn are too big for them to swallow, but they will work at them for a minute or two with their little bills, when they soon have the kernel divided into two or three parts so that they can swallow them. Residents of Bloomington and McLean county, who have closely observed the matter, say that the "sparrow law" has not decreased the number of sparrows here to any appreciable extent.

FIRE AT THE CONDUCTOR.
Dan Cameron of the Wabash Has Some Trouble

Detective Ballard of the Wabash received a telegram from Conductor Dan Cameron dated at Monticello stating that they had placed under arrest at that city a man who had shot at the conductor at Benet and narrowly missed his mark, the ball going through Cameron's coat. The name of the man was not given but it is supposed that he was one of the Monticello party who came to Decatur yesterday to see Corbett and who on their return trip last night got hounded under the influence of the red wine, of which they imbibed so freely last night and when Benet was reached the conductor ordered him off. His reply was a short and a fatality was narrowly averted. The man was allowed to ride to Monticello and there the sheriff placed him under arrest. He will now have a very serious charge to answer as a result of his little spree. The Detective left to-day for Monticello to prosecute the case.

FUNERAL SERVICES.
Over the Remains of the Late Mrs. J. H. Alexander

To-day about noon the remains of the late Mrs. J. H. Alexander were laid in their last resting place in Greenwood cemetery. The funeral services were held at 10 o'clock this morning at the late residence of the deceased, two and one-half miles northwest of the city, and were impressively conducted by Dr. E. W. Moore. The home was filled by the large number of friends and relatives, who observed in this humble manner to pay their respects to the memory of the departed and her bereaved family. The floral offerings were very beautiful, fitting symbols of the life of she who has gone beyond. The choir chanted several beautiful selections. The pallbearers were Messrs. J. P. Roach, John R. Shaw, G. R. Steele, John Shoemaker, Joshua Green and Henry Cassell.

Married at Washington City.
The Washington Observer says: Prof. Chas. E. Hughes, of Wheeling, W. Va., a compositor on the Register, and Miss Letitia A. May, of the Decatur, were quietly stole a march on their friends on Thursday and came to this place where they were married by Rev. J. J. Hill, pastor of the First M. E. church. Dr. Hughes, besides being a first-class printer, is also one of the leading musicians in town for a few days the happy couple will return to Wheeling.

The above appeared in the Wheeling Register of Jan. 14th. The bride was formerly a dress maker in Decatur, and is a daughter of Darius M. Vey. The Republican extends congratulations to Hattie and the Professor.

A Score for Dora Seales.
Somebody thought last night that Kate Olcott was a guest at the Hotel Logan, simply because there was a little fire in one of the rooms on the third floor at the time. It was the middle of a score that fire, but it was a plenty of smoke. The score was in the room occupied by Miss Dora Seales, a domestic, who had placed a lamp on the stand. It had no chimney. She left it burning and fell asleep. When she awoke there was a big blaze from the lamp and stifling smoke in the room. Miss Minnie Butler, a guest, prevented the possible destruction of the hotel by the prompt and judicious use of a little water.

Good Templary.
There was a good evening at Decatur Lodge last night, which was elaborately decorated in preparation for the so-called to-morrow night. There were four additions to the membership. Mrs. Woodbury, Miss Daisy Imboden, M. M. Myra Garmon and Chas. Boyer. An attractive library program was given as follows:

Instrumental Solo. Miss Nellie May Mearns.
Recitation. Miss Kate Seales.
Recitation. Miss Cora May.
Recitation. Miss Rita Adams.
To-morrow night there will be a doughnut social, with short music and literary program, to which all are invited.

Arrest of the Thief.
Detective Ballard, of the Wabash, was in the city to-day and stated that he had arrested Chas. Meder, at Springfield, on the charge of stealing Conductor James Carr's overcoat from a sleeping car last Saturday night. Meder had pawned the overcoat at Springfield to a man by the name of Goodman. Ballard recovered the overcoat and the arrest followed. Meder is now languishing in the Springfield castle, on the charge of burglary. He failed to furnish the \$500 bond.

Organized Last Night.
Thomas Burke returned to-day from Bloomington, where he organized McLean county Plumbers Steam and Gas Fitters Union, No. 99, last night with 15 charter members. A reception was tendered Mr. Burke later in the evening at the Fraternal Athletic club.

DURFEE IS COMMISSIONER. He Will Look After the Joliet Penitentiary—The Railroad Board.

Nominations Sent to the Senate To-day by Gov. Altgeld—Confirmations To-morrow.

Governor Altgeld to-day put a number of Democrats in line to go on duty as state officials. And now the agony is over for scores of anxious ones who have been seeking preferment at the hands of the state executive. Altgeld has made his choice at last, and to-morrow the senate will as a matter of form confirm the appointments to and the commissions may issue and the pay of the appointees begin.

PENITENTIARY COMMISSIONERS.
Nominations for penitentiary commissioners were made as follows:
Joliet Penitentiary—Hon. B. K. Durfee, Decatur; Samuel Heenan and Levi Waltemas.
Chester Penitentiary—W. F. Chelmer, Salem; W. H. Krane and John J. Schmeider, the latter from Elmhurst.

The yearly salary of the penitentiary commissioner is \$1600, including transportation on all railroads and other perquisites of a substantial character. The work is not arduous, but the duties are such that good business men are required to look after the affairs of the institutions.

Mr. Durfee was strongly supported for appointment as member of the railroad board, the salary being \$5500; but the candidacy of Mr. Lape, which was pressed with considerable spirit, put Mr. Durfee out of line for that place.

Mr. Durfee's appointment will be strongly endorsed by his many Decatur friends, regardless of party affiliations. He is a good business man, in the prime of life, and has served this district as a member of the Illinois legislature. He is the present secretary of the Decatur Gas Light and Coke company, and also secretary of the Savings Fund Building association.

RAILROAD COMMISSIONERS.
The following nominations were made for members of the state board Railroad and Warehouse commissioners:
Aldermen Thomas Gahan, of Chicago, a native of Cook county, 44 years of age, member of the Iroquois Club, and an active member of various societies. He has been connected with several big packing houses.
Charles F. Lipe, of Springfield, a native of Ohio, and a veteran of the late war. He was in the service three months. Until recently he held the position of master mechanic for the Wabash at Springfield. He is a practical railroad man.
William L. Cantrell, a native of Franklin county, a graduate of the Indiana State University, a lawyer, a Democratic National delegate in 1888, and a son-in-law of Hon. Charles Burnett, of Shawneetown.

Put Up in the 39th.
The Republicans at Springfield in considering the senatorial reapportionment plan make this suggestion as to Macon county:
Thirty-ninth district—Macon, DeWitt and Monroe counties; population 72,156. Logan is put into the 43d district, with Macon and Tazewell.
The Republicans make this apportionment as to the new congressional district:
Thirteenth district—DeWitt, Macon, McLean and Livingston counties. Logan county goes into the Fourteenth with Peoria, Marshall, Woodford, Tazewell and Macon.

THE STATE AUDITOR'S SON.
Members of the Gore Family Falling into Fat Places.

Auditor Gore is about to come in contact with Democratic indignation. He has just appointed his son, Victor M. Gore, now of Chicago, attorney for the state auditor in Chicago. The place was formerly filled by James Baldwin, and is worth from \$2,000 to \$5,000 per year. It requires a man of fine legal attainments, as he has to pass upon all delicate and important legal questions as related to the insurance interests of Chicago, which last year represented an invested capital of \$500,000,000. It is reported that he has not been a resident of Illinois since 1880 or 1881, at which time he moved to Minneapolis and engaged in the practice of law, and one year later he left Minneapolis and moved to Buchanan, Mich., where he practiced law when he could absent himself from his farm. During the last campaign he worked for the Republican party in his district, making speeches for that party's candidate. Auditor Gore is reported as saying that he appointed Victor to assure honesty in the administration of his office, thereby intimating that there were no honest men in Illinois outside of the Gore family. Democrats at Springfield are talking of holding an indignation meeting, as the interests of the party as a whole are at stake in this and all like appointments.
